To Whom It May Concern

This is to certify that Mr. Moinur Rahman worked as a Research Assistant (concurrent with his Master's degree) in my research team at the Department of Statistics and Data Science, Jahangirnagar University, Bangladesh, from April 2024 to April 2025. As the supervisor of his Master's dissertation, I had the opportunity to observe his research abilities closely throughout this period.

During this period, he was engaged in research on public health and biostatistics, with primary responsibilities in data management, statistical modeling, and analysis of complex public health datasets, systematic reviews, manuscript preparation, and coordination of collaborative research activities. He contributed to multiple research projects, several of which have been published in internationally recognized, Q1/Q2-ranked peer-reviewed journals, while others are currently under review.

Throughout his tenure, Mr. Rahman demonstrated a strong command of statistical methodology, sound judgment in selecting and applying appropriate models, and proficiency in handling large and complex datasets. He consistently exhibited analytical rigor, professionalism, effective communication, and the ability to work both independently and as part of a research team.

I appreciate his valuable contributions and wish him success in all future endeavors.

If you have any further questions or require additional information about Mr. Rahman, please feel free to contact me at hossainmm@juniv.edu.
