To Whom It May Concern

This is to certify that Mr. Moinur Rahman, born on 28/03/1999 in Munshiganj, has been employed as a Research Assistant in Biostatistics (remote) at Lets Enjoy Statistics (LES) Ltd, Preston, United Kingdom, since April 2025.

He has provided statistical support for ongoing projects at LES, collaborating internationally on liver cancer, venous thrombosis, and AI-driven evidence synthesis. His responsibilities included data management and the application of statistical models to ensure the studies' statistical soundness. Additionally, he contributed to reviewing research methodologies to make them suitable for publication in scientific journals.

Mr. Rahman is diligent, responsible, and highly motivated to apply and develop new statistical methods for biomedical and public health research. We wish him every success in his future academic and professional endeavors. Please do not hesitate to contact us if you require any further information.

Regards,

S. Parvin
Director, LES
